Harris Murray and wife accompanied his sister, Mrs. Thos. Huskey, Jr., and babes home Saturday. Mrs. Huskey had been visiting her parents and brothers near Lodge.

Albert Barrett and Mr. Sickman of Lutesville were in this vicinity not long since.

A recent letter from Prof. O. M. Schoebel to Thos. Huskey states that he was enabled to do a "little bit" a short time ago in caring for a young soldier who belonged to a company that had been to the Mexican border, but were needed no longer there and had returned to Kansas and were forming a unit to go into active service. They were camped on the college campus just across from the residence of Prof. Schoebel, who, in taking a walk across the grounds, found the young man lying on the wet grass. (There had been a rain the night before.) He was lying on a sunny slope trying to keep warm in the sunshine and was suffering intensely. Mr. Schoebel had the young man's companions take him to his house where a physician was called who pronounced the case peritonitis. He was taken to Prof. Schoebel's house Tuesday morning, having taken sick the night before, and although everything was done that could be done he died the following Sunday evening. The young soldier appreciated to the fullest extent the kindness and care he received from the Schoebels and was not at all afraid. Although Mr. Schoebel was born and educated in Germany and speaks with a decided German accent the soldier realized that he was being cared for by a man who was as loyal to his adopted country as any American born citizen. The young man was buried from the M. E. church Monday following his death with military honors. Prof. Schoebel and family were well known here, he having taught music at Marble Hill, Jackson and Cape Girardeau and also had pupils throughout the country. He is considered by those in position to know one of the best musicians and composers of music in the United States. He is now president of the Campbell College at Holton, Kansas. He contributes to the soldiers mess kit fund, to the Red Cross and helps to "do his bit" in other ways, which should put to shame some of the native born citizens who think a loud voice and loose tongue against our German-American citizens all that is required of them to win the war. We admit there are Germans in the United States who are here for the purpose of helping Germany, yet it is only the very narrow-minded who connect them with our German-American citizens who have been here from twenty to perhaps fifty years and some longer and whose every interest is here.
